11. In addition to the text, the full JPEG and JPG images elements are allowed only.
12. The graphic elements, made in graphic editors with high-quality details, are allowed to use.
13. It is forbidden to use scanned drawings/drafts made with a pencil or pen by hand.
14. The excessive use of tables is forbidden, a small volume of tables are allowed only.
15. The file format for sending to the editors can be .DOC or .DOCX only.

STRUCTURE OF THE SCIENTIFIC ARTICLE:

The title of the article should briefly inform its content and contain no more than 13 words.

Abstract (100–150 words) should be clear and informative (with no secondary phrases, general information), meaningful (to present the main content of the article). It should contain an introductory sentence, a brief description of the methods of conducting research (1-2 sentences). There should be a description of the main results and concise conclusions or prospects for further research. The abstract must be clear and without familiarizing with the main content of the article.

Key words: 6–8 words /phrases reflecting the specifics of the topic without duplicating words from the article's title.

The text of the article should contain the introduction, the main part and the conclusions.

“Introduction” should contain a description of research of the problems in the world scientific literature and the purpose of work.

The main text. The research tasks should be formulated. The purpose and tasks should be interconnected and reveal of the article’s topic. The materials and methods of research, research results and their discussion should be presented.

Materials and methods of research are formed in the way so the research can be reproduced according to the description provided. The common methods require no explanations.

The results and discussion. The main research material outlined with full justification of the scientific results obtained. The results should be presented in a logical sequence in the text, tables and figures. It is not necessary to duplicate and repeat the data of tables and figures in the text. Their comparison can be mentioned only. When summarizing quantitative data, it is necessary to indicate not only relative (for example, percent), but also absolute values, and the specific statistical methods applied for their analysis should be mentioned.

The discussion. This part contains the interpretation of results only, without their iteration. It is necessary to select new and important aspects of the conducted research, to analyze the possible mechanisms or interpretation of these data and to compare them with the data of other researchers, if it is possible. The discussion could include well-grounded recommendations for practice and possible perspectives for applying the results in the future studies.

“Conclusion”. The results of solving the problem indicated in the title and purpose of the article are presented here.

“References”. All sources from the references should be quoted in the text of the article; otherwise, the corresponding element should be deleted. The references to sources used should be mentioned in parentheses, where the author’s name, the year of publication, the page to which you refer in the text should be mentioned. For example: Jones S. stated, “Students often had difficulty using APA style” (Jones, 1998, p. 199). The references should be listed. If the article sourced has the digital object identifier, DOI (<http://doi.org/index.html>), it should be necessarily mentioned.

References should be completed under International Standard Bibliographic Description, APA (<http://www.apastyle.org/>). The title of sources in Ukrainian should be translated in English, their transliterated titles should be mentioned in parentheses*. For example: Bernatska, Zh. (2020). Administratyvno-hospodarske pravo yak pravova osnova formuvannia ta realizatsii ekonomichnoi funktsii ukrainskoi derzhavy (Administrative and commercial law as a legal basis for the formation and implementation of the economic function of the ukrainian state). *Administratyvne pravo i protses*, 3(30), 5–16. doi: 10.17721/2227-796X.2020.3.01 (in Ukrainian).

*Websites for transliteration from: **Ukrainian**.

ACADEMIC INTEGRITY:

The Editorial Board guarantees high-quality anonymous peer-review of articles and their check for plagiarism using StrikePlagiarism.com by the Polish company Plagiat.pl.

REVIEW PROCESS:

All materials submitted to the editors and corresponding to the topic are reviewed before release with the involvement of at least two experts. Reviewing is carried out by one of the members of the editorial board, who is a recognized expert in the field of knowledge on the subject of the presented work. The objective reviewers carefully evaluate the quality of the submitted article, including using their personal criteria. The reviewers check the manuscripts to justify the chosen research methodology and procedures. In addition, they are able to detect unethical actions or plagiarism. If the reviewer has comments on the article, it can be returned to the author for revision.

The editorial board of the journal reserves the right to reject articles that do not meet the requirements and topics of the journal.

EXAMPLE OF THE ARTICLE EXECUTION:

**HARMONIZATION OF ADMINISTRATIVE AND LEGAL REGULATION
OF STATE GOVERNANCE OF ECONOMIC ACTIVITY IN UKRAINE:
SOME LANDMARKS**

Svitlana Bevz,

Doctor of Law, Associate Professor,

*Associate Professor at the Department of Economic and
Administrative Law of the National Technical University of Ukraine*

"Igor Sikorsky Kyiv Polytechnic Institute" (Kiev, Ukraine)
