IZDEVNIECĪBA
BALTĪJA
PUBLISHING

The monograph is published by the European publishing house “Izdevniecība “**Baltija Publishing**” (Riga, Latvia) and recommended for printing by the institution’s academic

council. Three reviewers, who are mentioned in the monograph’s output data, guarantee an independent review.

The monograph is awarded **ISBN** that permits authors to participate in developing the collective scientific paper published in the country of the EU.

DOI is assigned to every article included in the collective monograph that allows the authors to find their scientific work on the [Open Ukrainian Citation Index \(OUCI\)](#) site, which was developed by specialists of the State Scientific and Technical Library of Ukraine on behalf of the Collegium of the Ministry of Education and Science of Ukraine.

The monograph will be available on the website of the European publisher “Izdevniecība “Baltija Publishing” [at the link](#).

The authors of the collective monograph’s section receive an electronic layout of the collective monograph and a certificate.

Why is the publication of the monograph section valuable?

*(for fulfilling the licensing conditions,
to obtain the degree of Doctor and Candidate of Sciences,
for awarding the degree of Doctor of Philosophy (PhD),
for young scientists)*

[LEARN MORE](#)

KEY DATES:

The submission of application forms and articles for publishing in the monograph: before September 30, 2025 (inclusively).

Feedback on papers acceptance: within 3–4 working days after papers receipt.

E-mail distribution of the monograph's layout and the certificate: after December 16, 2025.

REGISTRATION PROCEDURE:

To publish contributions in the collective monograph, authors should act as follows:

1. **fill in an application form** and send a manuscript to **med@cuesc.org.ua** for peer-review **before September 30, 2025;**

2. send a copy of the payment confirmation following the manuscript's approval for publication.

Re: COLLECTIVE MONOGRAPH ON PUBLIC HEALTH CARE.

MONOGRAPH TARGET TOPICS:

1. Public health organization and management at the international, national and regional levels, action planning in emergencies (*activities of the World Health Organization, the WHO Regional Office for Europe; statutory acts and programs on public health; operating functions for public health protection; best international and domestic practices in public health, leadership and strategic management*).

2. Monitoring and responding to public health emergencies (*safety strategies in health care, including best practices, International Health Regulations (2005); biosecurity; hygienic aspects of vital activity security, sanitary and epidemiological well-being of the population*).

3. Implementation of the state monitoring system for health determinants (*Sustainable Development Goals until 2030; disease prevention, implementation of Health in All Policies*); *research methodology, biostatistics, risk analysis; the system of social and hygienic monitoring in Ukraine and the world*).

4. Domestic and foreign experience in training public health specialists (*personnel policy on public health; experience of international NGOs (Association of Schools of Public Health in the European Region, Agency for Public Health Education Accreditation, European Public Health Association, European Public Health Alliance, European Health Management Association, EuroHealthNet); domestic schools for training public health and environment and health specialists*).

5. Mental health (*health psychology; topical issues of psychosocial and physical rehabilitation of the military, internally displaced persons and citizens amidst Russian aggression; sanogenic thinking*).

6. Protection of motherhood and childhood (*reproductive health; prevention of reproductive diseases; social and ethical problems of artificial insemination; prevention of hereditary and congenital pathology*).

7. Health promotion (*information technologies, AI, communication management; the role of non-governmental organizations in maintaining and strengthening health at the individual and population level*).

8. Financial management in public health (*project and program management, logistics of the public health system; financial aspects of public health at the present stage*).

9. *Legal support of the public health system (legal aspects of ensuring the safety of the human environment; medical law, bioethics and deontology, patient and healthcare staff safety; Health Care Code)*.

10. Other public health concerns.

ACADEMIC INTEGRITY:

The Organizing Committee guarantees high-quality anonymous peer-review of each monograph section. All monograph sections are subject to checking for plagiarism using [StrikePlagiarism.com](https://www.strikeplagiarism.com) by the Polish company [Plagiat.pl](https://www.plagiat.pl).

PROHIBITION TO REFER TO THE AGGRESSOR STATE'S SCHOLARLY PAPERS:

We kindly note that the monograph languages are Ukrainian, English, and Latvian. It is prohibited citing and including in the reference list russian-language contributions published in any country, incl. papers written in other languages but published in russia and belarus.

ARTICLE REQUIREMENTS:

An article should be a holistic document of scientific content that involves the results of the author's original researchers.

The volume of the monograph subsection should be at least 15–30 pages. A4 paper format, line space – 1,5; Times New Roman, 14 size; all margins – 20 mm.

3 people are a maximum number of authors.

Languages: Latvian, English and Ukrainian.

ARTICLE GENERAL STRUCTURE:

Monograph section name; author's surname and initials in the publication's language.

A paper should have the following structure: a short introduction (1–2 pages), 2–3 equally weighted sections and conclusion (1 page), summary: 7–10 sentences in the article's language (to indicate a range of problems and research results).

The article must have per-page citations as well as References at the end. Citations should be indicated with a number without brackets and dots using Microsoft Word references.

To improve the quality level of scientific citations in the scientometric database [Open Ukrainian Citation Index \(OUCI\)](#), it is important to indicate **DOI** for every source which it has.

Attention! References are in a source language and executed taking into account the National Standard of Ukraine [DSTU 8302: 2015 “Information and documentation. Bibliographic reference. General principles and rules of composition”](#).

Author's full name and information: scientific degree and rank, post, affiliation, address of employment place, ORCID (in English regardless of the publication's language).

Attention! In case of submitting a non-English article, an author should additionally submit an English name of the section and its structural elements (subsections) (see a design sample).
