До питання методології наукових досліджень здобувачів вищої юридичної освіти

Благодарний А. М.

доктор юридичних наук, старший науковий
співробітник,
професор кафедри загальноправових дисциплін

м. Київ, Україна

Фундаментом будь-якого наукового пізнання, в тому числі наукових досліджень, що проводяться студентами, які здобувають юридичну освіту, є його методологічна база, яка безпосередньо залежить від об'єкта та предмета пізнання. Значення методології у науковій діяльності складно переоцінити, адже без неї неможливо збагнути багатомірну та суперечливу сутність будь-якого явища. Практичний зріз методології надає можливість підтвердити або спростувати теоретико-методологічні висновки наукового пізнання шляхом детермінації соціальної реальності у правову сферу, надання їй юридичної форми вираження та існування [1, с. 99].
